

Senior Statistician

Do you want to be part of a dynamic team that drives the activities within biostatistics in an inspiring environment? Would you enjoy working with a large variety of tasks and with the ability to influence your job? Larix Data Science is now seeking a Senior Statistician to join our Herlev office.

Larix A/S is a Nordic Contract Research Organisation (CRO) – we offer full-service solutions within the pharmaceutical, biotech and medical device areas. Our headquarters are located near Copenhagen in the middle of the Medicon Valley region, and we have strong ties to the thriving pharmaceutical and biotech activities in this region.

The Data Science team comprises experienced and enthusiastic employees responsible for fulfilling customer needs.

At Larix, we maintain a friendly atmosphere – we think having fun while working is important. We are a relatively small company with approximately 55 employees, and we have all the benefits of being able to collaborate across functions and learn from each other. You will be able to influence your development and on future tasks.

At Larix, you will be part of our Data Science Department in Denmark. You will work from our offices in Herlev but should also be prepared to work at a client's office in the Copenhagen area from time to time. At Larix your main tasks will be to participate in protocol development or the clinical development plan process, including discussions of study designs, selection of endpoints, sample size determination, preparation of the statistical section of the protocol and development of statistical analysis plans, analyse study data and assist in interpretation and communication of results, and prepare statistical reports and other statistical documentation. A key aspect of your job is making sure stakeholders get what they need in a timely manner, relying on your service-minded and flexible nature while fulfilling all regulatory requirements.

We are looking for a Senior Statistician – we see you as a proactive and competent colleague who approaches projects with a team players' spirit. At the same time, you are self-driven, work independently and can plan and structure your own tasks. Moreover:

- You have a relevant formal statistical education at MSc level or higher
- You have 3+ years of experience as a statistician from the pharmaceutical industry and/or biotech companies
- You have experience working with SAS
- Experience working with R is an asset
- You are a dedicated team player with a high-quality mind-set, you meet your deadlines and know how to prioritise between different tasks in a dynamic environment which requires a high degree of flexibility
- You have good communication skills – and of course, you speak and write English effortlessly

At Larix, we look forward to welcoming you on board - We offer a competitive salary with bonus, a pension scheme, ongoing education, and flexibility in the daily working hours.

You are welcome to contact Søren Lophaven, Vice President, Data Science at snl@larixcro.com or call for further information: +45 81 77 15 50. You can also visit our website at www.larixcro.com

To apply for this position, please forward your application and CV to info@larixcro.com no later than 31 March 2019. Applications will be handled in the order they arrive.
