

Deputy/Senior Data Manager

Are you an experienced Data Manager and do you thrive in a highly professional, dynamic, and inspiring environment? Would you enjoy working as a senior data manager with deputy tasks and support developing the team?

Would you like the chance to both work operationally and have the opportunity to work closely with the Director of Data Management as a deputy and further develop the Data Management department with a smooth decision-making process and valued employee influence? Then you may be our new member for Data Management at Larix.

What you will do

At Larix, your main tasks will be to support the team and act as the deputy for the department as well as be responsible for working in sponsor projects. You will be part of the coordination and planning of the resource allocation and ensure timely and high-quality deliverables from the team. As a part of data management department in Larix you will involve working on a range of different projects. You will also be involved in client contacts and contracts and be part of driving the development of tools and other technical solutions in the department. You will be joining a qualified and experienced data management team and you will be a part of our Nordic team reporting to the Director of Data management in the Lund (Sweden) office.

Who you are

You are an experienced data manager, with willingness to further develop and maybe have earlier management experience – we will get to know you as a proactive and competent employee who approaches projects with a team player's spirit.

Moreover, you have experience:

- Master's degree or equivalent (health, life science, medical science or likewise)
- 5+ years with Project Management and oversight of DM activities
- CDISC standards
- Hands-on operational tasks throughout the data management life cycle
- Technical skills, SAS programming skills, experience within medical device and NIS studies are considered an asset
- Leadership and/or mentoring experience in a clinical development environment
- Ability to plan and organize tasks and prioritize when needed

Are you interested?

We would love to hear from you. To apply for this position, please forward your application and CV to job@larixcro.com or by applying here on **LinkedIn** using EasyApply. Applications will be handled by our Talent Acquisition Partner in the order they arrive.

Therefore, we highly recommend you submit your application as early as possible to be considered for the opportunity of your choice.

Who is Larix?

Larix A/S is a Nordic Contract Research Organization (CRO) – we offer full-service solutions within the pharmaceutical, biotech and medical device areas. Our headquarters are located near Copenhagen in the middle of the Medicon Valley region, and we have strong ties to the thriving pharmaceutical and biotech activities in this region. We also have an office at Medicon Village in Lund and a local presence in Helsinki. Larix is a part of Alten Group and we work closely with our sister companies (Aixial and CMED), which gives us all the advantages of being a small, agile and flexible company combined with support from a larger company when it comes to e.g. systems and resources.

At Larix, we maintain a friendly atmosphere – we think having fun while working is important, and we prioritize creating a work environment with a healthy work-life balance. We are a relatively small company with approximately 70 employees, and we have all the benefits of being able to collaborate across functions, learn from each other and follow clinical study processes from start to finish.
