

Experienced Statistician

Do you want to be part of an experienced statistical team in a friendly environment with flexible working conditions, high level of independence and diverse statistical tasks?

Then join our statistical department that are currently growing and looking for a statistician like you.

What you will do

At Larix, you will be part of our Biostatistics Department in Denmark. We are an openminded and pragmatic team of eight statisticians, who depending on the size of the task we either work independently or in teams, but we always find time to help and discuss with each other.

As a member of the biostatistics team, you will typically be responsible for a number of clinical studies or other statistical tasks within drug development for different clients. This means that you will often handle different indications and development phases at the same time. You will work on these tasks either from our offices in Herlev or Lund together with colleagues within Larix, or you will work from a client's office in the Copenhagen area together with their staff. Based on your preferences and the tasks at hand we try to find a balance that suits you.

Our focus is to deliver quality on time for our customers, which we also expect from you. In return, we offer a flexible setting; for example, we are open towards part time- or home-based team members within Northern Europe.

Who you are

We are looking for a senior statistician, statistics specialist or a principal statistician who finds energy in solving complex statistical issues as well as being operational. Moreover:

- You have a MSc or PhD in Statistics or in natural science with a substantial statistical component
- You have expert knowledge of statistical methodologies related to trial design and reporting of these including the latest developments within the field
- You have a solid experience within programming, modelling and simulations in a statistical software, preferably SAS
- You have a solid experience with drug development and the regulatory environment
- You are able to handle several tasks at the same time and maintain a high level of quality
- You are able to communicate technical aspects to a non-technical audience
- You are easy to collaborate with

Are you interested?

We would love to hear from you. To apply for this position, please forward your application and CV to job@larixcro.com. Applications will be handled by our Talent Acquisition Partner in the order they arrive.

For more information, please contact Tu Duyen Le Thi, Head of Statistics and Statistical Programming, Larix A/S at +45 8188 4224.

We look forward to welcoming you on board - we offer a competitive salary package including pension scheme, life and medical cover, ongoing education, and the opportunity to work at home from time to time.

Who is Larix?

Larix A/S is a Nordic Contract Research Organization (CRO) – we offer full-service solutions within the pharmaceutical, biotech and medical device areas. Our headquarters are located near Copenhagen in the middle of the Medicon Valley region, and we have strong ties to the thriving pharmaceutical and biotech activities in this region. We also have an office at Medicon Village in Lund and a local presence in Oslo and Helsinki. Larix is a part of Alten Group and we work closely with our sister company (Aixial), which gives us all the advantages of being a small, agile and flexible company combined with support from a larger company when it comes to e.g. systems and resources.

At Larix, we maintain a friendly atmosphere – we think having fun while working is important, and we prioritize creating a work environment with a healthy work-life balance. We are a medium size company with approximately 75 employees, and we have all the benefits of being able to collaborate across functions, learn from each other and follow clinical study processes from start to finish.
